
DC Current Monitoring Relays

Current Relay

Function

Detects situation of Over Current and actuates trip/alarm circuit.

Application

Float cum boost Battery chargers for power plants, Aux. supply, DC sources and power supplies for telephone Exchanges etc.

Specification:

- Aux. Supply : 240/110 V (AC) , 24/12 V (DC)
- Trip Current : 0 - 75 mV depending on Shunt
- Output : 2 Change-over (Potential free)
- Sensing : Through Shunt
- Indication : LED (Aux. Supply, Trip)
- Mounting : Rail /Panel
- Enclosure : ABS molded
- Dimensions : 60x70x130
- Reset : Manual Reset (Push)
